Produkt: USO handset
Hersteller: molitor GmbH
<https://molitor-berlin.de/produkte/uso-einhandhoerer/>

Handset

Material: PVC plastic

Colour: Standard colour white, grey or black like specified by the principal

Magnetic fixture: suitable for both vertical assembly and horizontal use, earphone can be removed in all directions. Autostart-function: On removing the earphone from its stand an integrated electrical switch sets up the audio- or video-information. This is ended by replacing the earphone. The protective tube is shielded from draught and pressure by an aluminium base behind the connective drilling. Length of the cable protection tube: 1.25 m, positioned at a right angle to the mounting surface.

Dimensions: height incl. base = 78 mm, diameter = 74 mm

Weight without base and protective tube: 220 g

Loudspeakers: impedance = 32 ohms, max. loading capacity = 0.1 watts
